For Immediate Release

City of Evansville's Leaf Vac is Temporarily Out of Service

Evansville, WI – As of today (11-17-2025) Public Works is having mechanical issues with the city's leaf vac. The amount of time the vac will be down is unknown at this time.

In the meantime, the Public Works team is working diligently on leaf retrieval by other methods, albeit taking more time. Thank you in advance for your patience and understanding in the matter.

Scott Kriebs, Municipal Services Director
